

## CREATING STRUCTURE OUT OF CHAOS

Are you ready to tackle a 'wicked problem'? Are you serious about innovation and change?

Then let us guide you through the creative, innovative and change process.

We will facilitate, motivate and support you throughout the process, or at any stage.

## CREATE THE CHANGE WE NEED

You and your stakeholders are the experts in your community. Together we work on problems and solutions through co-design and collaboration. Let us upskill, resource and connect you so that you can lead the change we need to see.

Our work fits in with the Integrated Reporting framework, your Strategy and Sustainable Development Goals framework (<https://sdgs.un.org/goals>).

When working with us, you will be well informed and well connected with support of like-minded people from a range of professions & experience.

*"[Redwoods] helped us explore and debate our ideas ... provided research, statistical data and ... case studies to help us decide whether we should proceed any further" GCAIS, 2023*
